**SPUDSY**

**#SAVETHESPUD**

Over 150 million lbs of sweet potatoes end up in landfills each year because they are deemed imperfect due to minor 'flaws' like shape, size, and color.

But what exactly is upcycling? It is the process of transforming unwanted waste materials into new materials or products of better quality with environmental value.

Spudsy upcycles these imperfect spuds to create the sweet potato flour used in their products because, well, they don't judge a tater by its lumps!

Look for Spudsy at Huck's!

# PEACE COFFEE

Peace Coffee are starry-eyed dreamers who believe in bicycle-power, being nice, and bringing neighbors, farmers, and the community together. They believe that collaboration works wonders, and that passion and honesty, and a really great cup of coffee can make the world a better place. And when that coffee is sustainably grown and freshly roasted to bring out the best in every bean, well, that's when the real magic happens.
