Rudi's grew up in Boulder making bread, with a goal to make delicious bread that people would love. From day one, they believed that passionate people, shared values and small batch baking techniques make for better bread. Making bread this way—the traditional way—with simplicity, quality and honesty, has always been a source of pride for everyone at Rudi's.

Revival Tea Company is one of the fastest growing tea companies in the United States, but it was almost a whiskey distillery. Based out of Spokane, WA this tea company is doing way more than “just tea”. Having experienced the awesomeness of craft brewing and distilling, this husband and wife team decided to create something new: craft tea. They are the only tea company in the US manufacturing their own tea right in the gorgeous Pacific Northwest! Having a shop located in our hometown makes this partnership that much sweeter. Get in to Huck’s this month and try some organic, locally crafted REVIVAL TEA.

RUMIANO

Rumiano Cheese is proud to say that their dairies go the extra mile for grass-fed milk production. The mild Northwestern coast of California has prime weather for grazing and pasture time. Year-round access to pastures and naturally growing coastal grasses are imperative to our definition of grass-fed feeding. Open pasture time and natural grazing allow the cows to roam freely make for high-quality milk.

Grass-fed and pasture-raised cows allowed to move freely and eat a natural diversified diet are not only much healthier, but they believe they seem much happier too! Small-scale farmers who have taken the time to get to know their cows (many even give them names) recognize that cows are social beings who are happiest when they have room to roam and socialize with others in their herd, which in the end produces a much healthier end product.

Saavy

NATURALS™

For over 20 years, Hugo and Debra have been innovating in the natural beauty care space on a national and global level.

Their backgrounds as chefs and mutual passion for creativity in business lead them to create brands, including Hugo & Debra Naturals & Saavy Naturals.

When the Saavedras first entered the national scene, they were challenged by the natural industry. It was tough, but they overcame these challenges, and in the process, raised the bar in their industry. They introduced the idea of "food grade body care" to the marketplace. Their standards for "natural" are unparalleled, often emulated but never replicated.
